The State election in Ohio took place on the 10th and 11th inst, Although it is well understood that Onio is one of the strongest and most thorough going Whig States in the Union wet the counties and districts were so cut up upon the gerrymandering phinciple, by the Tories, that last year the members of her Legislature stood thus

Our returns are partial, but indicate strongly that in spite of Tory gerry mandering, the Whig star will be in the ascendant in the Ohio Legis-InTuice In Jefferson County, where the Loco-Focos prevailed last year, the Whiga now have a in-jarray.of 3504

The returns from Hamilton Conniy are" te ceived, the result of which is astonishing. FROM WASHINGTON. Our extracts from the Washington correspondence are of unusual length to day. But the interest always attending the last hours of a session would seem to -arrant it. The probability is, it will be seen, that Saturday night-was the termination, so far as any legislation is concerned, of the business Baving, in number sufficient to prevent a quorum from getting together on Monday morning. the city until Monday morning at 8 o'clock to pa the Bill regulating the payment of money into the Deposite Banks, but it was probably weeks from to morrow.

PROCEEDINGS OF CONGRESS.

[Correspondence of the N. Y. Express.] Washington, Oct. 14, 1837. SESSION OF FRIDAY NIGHT AND SAT URDAY MURNING:

House of Representatives, I begin my letter hours, and the debates from this morning until midnight have been of great interest and excitement. The big gun, sy, the biggest gun of lees Forgien, the great Fit Moore himself. has spoken and again fainted, and lost his senses in the haginning of his speech. Legare of S. Carolina, as you have already, been told, made an eloquent and triumphant speech in hehalf of the Conscrivatives of the House, and against the Bub F.easury Expedient. Cambreleng has sustwined the roce Pocoism of his Loce Poco colleague in a speech of more than an hour. Cushing, of M. has made a strong and pass. erful defence of the North, in reply to Pickens of the South. Naylor, who defeated Ingersoll the agrarian; and author of the doctrine that a Biste Convention my enact laws as bloody as the exced of Draco, made a bold opposition to the Bub Trensury Bill, and a warm defense of U- corking men of the Prec States. Hoffman, of New York, has made a rejoiuder, unsurpassed in the American Congress or elsewhere.

a most unwarranted altack by mir. Campreleng, fall of bitterness; Lie, and invective, referring to Mr. H. as a politician, and as an officer of the American Navy, accusing him of having learned to tack and veer as a politician hile upon the area in the ervice of his country. Mr. " said pothing until Mr Cambre, leng had cleared his remarks. Mr. Wise obsained guis floor after Mr. C had finished his Tis ab, but readily yielded it to Mr. Hottudan fir abilef reply to Mr. C. The rejninder came and with volcapic force, and if ever a upan was fryad alive, it was Mr. Cambreleng. The in-tenat of the pene, the excitement of the hour, Trive collegues from New York. The gal-, sud font of the fall weie ere ded, and here than a thousand persons were within the II-II. A breathker silence reigned throughout, and the falling of a leaf or a hard breath, might brea hean beard with the utue. t distinctness fabell unt regrat At Mr. Hoffinan said, for h wever, at the sendous and excited the nerves well feelings of every man in the Hall.

The nece on of Mr, Hoffman's rejoinder, was

speech of Mr. Cambreleng and the rejoinder of Mr. Hoffman. You will find but one opinion of to incident,-- Na no will say loss of A- power and effect than I have said.

Mr. Wise followed Mr. Hoffman in a speech of nearly lour hours long. The House adjourned between 12 and 1 o'clock this morning.

WASHINGTON, Oct. 15th, ? Sunday Morning, 2 o'clock. Both Houses of Congress, at this late hour have adjourned over to Monday at 8 A M.

The business done since 10 o'clock exceeds al most the entire business of the session, First of all, the House have passed a bill, of course without much discussion, making an appropriation for the payment of themselves, the Senators in Congress, and the officers of both

Such Appropriation bills, like the Joint Resolution requiring the postage of letters sent by Express Mail, to be paid in advance, never tequire much discussion, or a record of votes. The rate is generally very unanimous, when number one is to be focked after. This Appropriation Bill amounted to several hundred thou-sand dollars, and included an appropriation for all the contingent expenses of Congress .-

Several attempts were made during the hight, by Messrs. Hoffman, Curtis, and Cambreleng, to bring up the bill for the relief of the New-York sufferers by hee. The House refused to go into committee upon its consideration by a small majority. Mr. Hoffman and Mr. Curtis ليبهوره بأللن House to take up the Bill, as an act of simple hotice to those who had been made poor almost; by being compelled to payheavy duties upon goods destroyed by fire. Campreleng seemed to be more indifferent to the bill than usual, perhaps, however, from the fact that he looked upon its passage as im-

possible The bill regulating the Deposit Banks was taken from the Committee of the Whole, by almost unanimous consent, and-passed the House with an amendment. The Senate did not recoive the bill from the House till between ten and eleven o'clock. Mr Webster introduced an amendment which was discussed at length and finally adopted. The bill was then sent back to the House at past one this morning.

A quorum of members were not present. call of the House was made and but eighty members answered to their names. A large majority of the members present were friendly to the passage of the bill ; Mr Adams, however, objected to its passage, and opposed all attempts to do business until a quorum were present The House adjourned at a few moments before

two for the want of a quorum. Two long speeches were made in the House

during the evening, and a short one hy Mr Wise. Mr. A dams spoke for more than an hour against the Deposite bank bill, which was before the House for seven or eight hours during the day. He believes that some of the Southern members made a compromise with the administration members agreeing to vote for the postponement of the payment of the fourth-instal ment of the Surplus Revenue, if the Administration members would use their exertions to effect the passage of the Deposit Bank Bill; which bill, it is thought, will give great relief of the session, as members had left and were to the deposite banks in the western and south western States. The members from Alabama, plead zealously for its passage this morning, but Mr Adams and one or two meinbeis from Axertion was being made on Sunday evening the West, would give it no support, and would (she latest date) to retain a sufficient number in not consent to its passage unless a quorum was which is equivalent to its defeat, until the next

Mr Wise informed the House at nine o'clock, when the General appropriation Bill was up for defraying the expenses of the Extra Session, that the gold was all gone, that the members of Congress had emptied the last keg of mintdrops, that the Secretary of the Treasury had falsified his promises in promising to pay the members in gold, that he himself had taken At midnight at the Capitol, in the Hall of the of the House, and out of pure compassion had tocrats, Blue skins, Hypocrites, or Fanatics! given him ten dollars in gold for ten dollars in Aler dy the llouw has been in seasion fourteen silver! One member he said, had his back saddled with forty pounds in silver; gold he could not get, and he only had his choice between shin-plasters and American half dollars! Oth er members had received their pay in the bank rage of the district banks, and others in Virginia bank notes, and in drafts upon distant and bro-

ken Deposit Banke. The gold bubble, thus you see, has burst in six weeks, during a short session. This event is tooked upon in Washington, as the consummation of the golden Humbug . The Golden Age her departed, and the Golden calf has been molten into silver. The silver and the cinders, the hot lead and the sparks, shin plasters and paper kites are all that is left. The members who received their pay in advance are the only persons who can hold up their silk purses of open net work through the interstices of which he yellow gold is to shine and glitter. To have seen the consummation and the full measure of glory of the reign of humbug, you should have been in the Horse last night and this morning.

Mr. Cost Johnson; of Maryland, addressed the House until 10, P. M., and amused the House with an amusing account of his visit to the Sergeant at arms, to get his per diem and mileage pas! Nothing better than District rags was offered him. He asked for bread and they gave him a stone.

In the Appropriation Bill the sura of ten thousand dollars was appropriated for Mr. Rush, for the purpose of defraying his expenses to Eucelv ng the Smithsonian bequest. Mr Wise made motion to reduce it to five thousand, instead of ten, which was carried. He said he had no notion of paying a man ten thousand dollars for abusing the Whige, and writing letters from England on banking.

During the evening the Bill for making and appropriation of \$1,600,000 for the further pro-e-cution of the Florida War was passed: "I'nis makes, I believe, nearly ten millions which has already been appropriated for killing sixty or eventy laptans. The golden hambug, and the

Plotida war humbug, are very wuch alika The Sinute did nothing until last night, and then only acted moon the bill which the House had laid - the for the wast of a quotum.

LOCO FOCOISM.

To the Value of the White & Couries

I wish not to excite any unreasonable je down or prejudice. But I would, in all scriousness, ash, will reason, calm, unbiaseed reasen, gane. tion the leading principles, and objects of the Loco Foco party? Is there nothing in the Planetary or Solar system, its perfection in form, and symmetry in movement, to convince Reason that Nature was not its great creator and preserver? Is there any thing in the history of past ages and governments, or of man distinctly considered, which can plausibly be adduced as a reason for adopting agrarianism? Do they point to Sparta, with her nonproducing citizens supported by the labor of her Helot Slaves? She will furnish no evidence in their favor. In fact there is but one way so far as Sparta is

concerned by which they could satisfy even themselves, and that is, that in their Government they expect to occupy the position of the Spartans, while the mass of the people are to rank as Helols. Do they bring forward Rome and tell us of her division of corn and conquered landa? Imprial Military Rivne will present doctfines; her examples will hardly convince peaceable Republicans of the property of attempting to change the order of Nature or our system of government. It may by some be said that these are not the

principles and objects of the Loco Foco or Yory Party as at present constituted. Is it true? The original Loco Foco Party have not clining. ed either in principle or character they have linut united with, nor have they gone over to any miles party, but they have received large accessions. A large body of the former support ers of Andrew Jackson have gone over to them and boldly; and openly exponsed their worst

principles This is not the result of accident. Certain

enders have long been maturing the plan, have abored incessantly to accomplish it, and they have succeeded. Iknow many men who have been long considered, and are, heads of " the who have long been in correspondence with the former managers of the Fanny Wright Agrarian Party, who have entered into their schemes fully, and done all in their power to assist them in obtaining appointments to office under the General Government They Tiave not been unsuccessful. I distictly name Richard M. Johnson, Thomas H. Benton, and Amos Kendall as being among that number. The ed-tor of a certain leading newspaper, in one of the largest cities in the Union which that portion of the old administration party, which have gone ever to Loco focoism have recently adopt d as their organ, was an original disciple of Miss Wright and a public advocate of the State School system. He was appointed to an important office mainly through the influence of the Vice President, where he attempted to increase, his salary by means not exactly sanctioned by law or custom, unless it he by the New Agrarian Code. The levelling principle now n fact predominates. Witness the attack upon the Judiciary, upon the Ornate, whose-destrucion has been seriously threatened. Read Amos Kendall's Letter to the Philadelphia Committee

Thomas H. Benton's correspondence. The attacks of the Globe, the organ of the party, upon the Merchants, Manufactures, and Mechanics. Upon the character of every hone at, and independent man in the country, who dares to raise his voice, and point out the dangers which threaten destruction, to uproot the very foundations of society. The proverb of like-marter fike man, holds good as regards them. reverse it, and it is still true, like man, like master. Catch words are manufactured and used to deceive the people, to prevent a candid and dispassionate investigation of the various important subjects presented for their considera-

When the subject of the currency and a cirulating medium are made the order of the day, they raise the cry of monopoly, and conjure up the ghost of the United States Bank. When honesty, capabiliy, and intellectual worth are When good and wholesome laws are recommended, or an observation of them exacted, they rail loudly about People's Rights, you must not attempt to infringe upon the right and liberties of the people. All laws that do not square with their peculiar notion of things, that would check and punish vice and reward virtue, they condemn and rail against as tyrannical, as an in-

fringement upon the rights of the people! But will their very God, Nature herself, sustain these men or their principles? Do we not find that Nature or some other-Creator, has formed us with very different capacities? Such as art under no circumstances can overcome? Shall we be salled upon to wer against the God of their Idolatry? Or shall we rather be con tent with the Order of Nature? It may be convenient for those who have no property or moral worth, to divide with those who have, to fatten upon their industry! But where does Nature in her government furnish any parallell for them

to cite for suthority!

To any measure or principle calculated to secure and preserve the rights of the people, to promote their happiness, and perpetuate our Resublisan form of Cavernment, we and our party are, I believe, willing to give our cordial support. I do not believe that our whole system is defective or rotten; it may on examination be found necessary to remove some of the plank and timbers, but like our glorious Frigate let us preserve the model, and like her, our Constitution will ultimately trlumph over all enemies. We certainly do not find ourselves or our country-in so prosperous a condition; at the present time as when the present party now in power obtained the ascendency. All was then well, all was prosperous. The settled policy of the Government furnished the means of liquidating our National Debt. The people were industrious, properous, and contented. They did not dream of the experiments which have since been made and are now proposed:

This happy and prosperous state of things the result of wise and prudent legislation under preceding administrations, was seized upon hy the present de inant party, and passed entirely to the credit of the administration (General Jackson and "the party.") THOMPSONIANISM Richard K. Frost, the

Thompsonian physician in the city of New-York has been arrested by the public authorities opon a charge of the marder of Tiberius G. French, and was held to bait in the sum of 5000 dollars. The deceased went through a course of Thompsonian treatment at the Infirmary which resulted in his death five days after its commencement. The body was disinterred by order of the oftoner, and an inquest held upon i. After the examination of many witnesses, the but a fallacious argument in support of their jury returned a verdict as tollows: "I nat in the opinion of the Jury the death of the deceased was accessioned by a general conjection of the internal organy, a complete prostration of his natural functions and nervous system, produced by the administration of deleterious and improper medicine, while in the Infirmary under the direction of Richard K Frost."

> LAW MAKING. A work has recently been published in England, called the Mechanics o Law Making. It is said to show well in what respects the redundancies and technicalities, which disfigure the language of the law may be avoided and amended. Animal Magnerism. This subject is turning the heads of sober John Bull, at this time, as well as Brother Jonathan. A Dr. Duportet has been lecturing in London and Edinburgh and putting people into trances by his skill in this sejence, and has created quite a sensation not only among the subjects of his experiments, but among the spectators who relate tales of his powers and doings. What are we to think of it is it a humbug, or is there some mysterious power with which ... are yet marquainted, that can be developed by what appears to un ridic: ulous motions and "monkey shines" of the operation If it be a humbug, a good many very sensible men have been imposed upon by it: if a humbug, thousands equally sensible will find they have been too credulous.
